**Subject:** FW: R6-00894 (SEMS User Request System) - Doc ID Range Request

Please be advised that we have submitted a SURS ticket to obtain confirmation we can use the seven million Doc ID series for the Hurricane Harvey records in SEMS-RM.

Thank you,

The following request was just entered by DEBORAH-J STANLEY  
and is now awaiting review by an SURS Reviewer R6-00894

Title: Doc ID Range for Harvey

Description: EPA COR, Diana Ortiz, has requested that we use Doc ID range: 7000000-7999999 for the Hurricane Harvey Response documents in SEMS-RM. Would this cause any problems if we started using this Doc ID range? I searched SEMS and two IDs showed, so those will remain as is. We should be able to generate the Doc IDs ourselves, just need to make sure it won't cause any problems in SEMS. Please advise.
